Owner of Village Dump Says Agreement Over Maintenance Unkept

Trustees Move to Purchase New Equipment to Cover Own Refuse

Complaint from Homer LaPlant that the village was not keeping its end of the bargain in taking care of refuse dumped on his farm south of the village along Rte. 173 was made by letter to the village board last evening.

The board acted at once to get equipment by which some of the refuse may be covered.

Trustees said that they had noticed that much paper had blown over the field to the highway and presented a bad sight, but at the same time they declared that the fault lies mostly with others to whom LaPlant has sold dumping privileges.

One trustee said that persons other than the village employees had dumped loads of refuse at the entrance of the farm near the highway and that the practice of dumping garbage at any place on the land was being followed by communities for many miles around through LaPlant's permission.

Suggestion was made that the village use its own ground east of the Soo line as a dumping ground but at present it does not have access to the land because of a lack of a roadway over the railroad. This was given an opportunity to secure a roadway over the railway right of way.

Drive for Fund to Buy Cigarettes for Veterans For Christmas Started

A drive to obtain money through which to purchase cigarettes for hospitalized veterans at Downey Veterans hospital as Christmas gifts was arranged by representative members of several civic, fraternal and religious organizations of Antioch and Lake Villa at a meeting in the village hall here last Friday.

The donations will be collected by E. H. Westlund, adjutant of the local Veterans of Foreign Wars, residing at 438 Lake St., Antioch. Boxes for the donations will be distributed in the business establishments of the community and in other prominent places. These will be collected and all donations must be made before Dec. 19.

Members of the community will distribute the gifts and Christmas cards which will read, "A Merry Christmas from the Communities of Antioch and Lake Villa."

A line of cars will leave Antioch and Lake Villa early Sunday afternoon, Dec. 22 for Downey and any person who wishes to go may do so. A financial report will be made at the conclusion of the drive.

Masonic Lodge Elects New Officers for Year

The Antioch Masonic lodge elected new officers Tuesday evening electing John Gaa to the position of worshipful master. He will succeed Joseph Horton.

The new officers and those yet to be appointed will be installed in the first meeting after January 1.

Other officers selected this week are Luster Badger, senior warden; George Good, junior warden; Edward Strang, treasurer; Elmer Kufalk, secretary; Adrian Vanderkloot, senior deacon; Wendell Nelson, junior deacon; and Ira Simons, Tyler.

Officers to be filled through appointment are senior and junior steward, marshal and chaplain.

In a special meeting Nov. 26 the lodge conferred the third degree on Eric Wenthall and Herbert Larsen. The degrees were conferred by a delegation from Abbott Laboratories in North Chicago. A large crowd was present, the register showing visitors from 19 different lodges from various parts of the country. Luncheon was served at the close of the meeting.

With The Sick

R. L. Murrie continues to improve. This week he began to have feeling in the leg that has been paralyzed showing that the nerves are beginning to respond. His recovery is slow but sure.

Don Burke suffered a heart attack Thanksgiving morning at 5 o'clock at his home on Tiffany rd. He is much improved.

Mrs. Katherine Griffin, mother of Mrs. Al Peterson is quite ill at the Peterson home on Lake St.

Retail Milk Down 1 Cent A Quart on Local Market

While some business places are announcing increased prices for their merchandise the Golden Glo Guernsey dairy came forth with an announcement this week that their Guernsey and homogenized milk would be one cent less a quart.

The price of Guernsey milk is now 20 cents and quart and homogenized milk 21 cents a quart, according to H. W. Horton, manager. Larger amounts have a decreased rate.

The reduction followed a half cent reduction to the farmers.

Telephone Rate Increase Asked In Antioch Area

Increases Range from 25-Cents to \$1 According to Type of Service

Through a petition filed with the Illinois Commerce commission Tuesday the Illinois Bell Telephone Co., asked an increase in rates averaging 16 per cent.

In Antioch monthly telephone rates would be increased 25 cents for rural residents and rural business service; 50 cents for four-party residence; two-party residence and individual residence service; and \$1 for two-party business and individual service.

Rates on long distance calls going outside Illinois are not affected, but those on calls within Illinois would be increased slightly. The standard three-minute initial talking period which now applies on calls costing 30 cents or more would apply on calls taking a 15-cent or higher rate. The five-minute initial talking period would apply on calls taking the 10-cent total rate which is the minimum.

The company explains that with the exception of a few towns made in connection with specific service improvements, the company has asked for no upward adjustment since the early 1920's, shortly after the World War I. Since then the cost of material have increased, but the rates on the other hand have been decreased. Earnings this year will be the lowest in 65 years, company officials say.

"Foxes Are Pretty Foxy" Say Hunters

Members of the Antioch Hunting and Fishing club and their guests reported sighting of eight foxes in last Sunday's hunt, but none of them were bagged. One of the hunters reported hitting a fox with a blast from his scatter gun, but the animal eluded the hunters in thick undergrowth.

About eighty hunters turned out for the hunt despite the bitter cold wind, and a wide area was covered. The hunt included all land between Route 45 on the east, Deep Lake road on the west, the state line on the north and Loon lake road on the south. The hunters were divided into squads and each squad was given a definite assignment, with convergence of all the hunters taking place south of route 173 on the north farm of Ravenscroft.

Dr. D. N. Deering, president of the club, along with Harry Novotny and other conservation officers, directed the hunt. General consensus of opinion was that the territory taken was too large for the number of hunters available and that had the hunt been confined to a smaller area results might have been better.

A second hunt is scheduled to take place after the first snow of the season. The date will be announced later.

While no foxes were killed Sunday, much has been gained in that an accurate idea of how many of the pests are in the territory was gained, and also many dens were located. Plans are being made by members of the club to obtain smoking equipment in order to smoke them out.

Bussie's Bowlers Defeat Holly's Chicago Keglers

"Holly," proprietor of Holly's Hollywood club in Chicago brought his ladies' and men's bowling teams to Antioch Tuesday night in challenging Bussie's ladies' and men's teams.

It was an exciting match and the gallery was packed with fans from Chicago and Antioch. Afterward the bowlers and fans numbering about 50 enjoyed a dinner at Hans and Mabel's.

The next match will be in Chicago Jan. 2.

Fossland Service Station Fire Calls Local Department

Believe Blaze in Apartment Started by Cigarette Left on Dresser

Antioch's fire equipment and Rescue squad went to the Fossland Service station on Skokie Highway at the state line Wednesday evening in response to word that the building was afire.

When they arrived the blaze in an upstairs apartment had been extinguished through hand chemical apparatus owned by the service station. The fire is believed to have started from a cigarette left in the bedroom of the apartment by the occupants, Mr. and Mrs. Norman Dahl, who had been forced to vacate the rooms an hour before the fire was noticed.

Dahl had been employed as a cook and his wife as a waitress in the restaurant in connection with the service station.

Because a dresser was first consumed it is believed by the proprietors, Torrence and James Fossland that the cigarette may have been laid there carelessly. Much of the furniture in the room was destroyed or damaged beyond use.

The Antioch department checked thoroughly to see that the fire was all out before leaving. The local department is providing service to Newport township until such time as the township can get its own equipment.

Future Farm Prices Will Be Discussed by Expert

"What's ahead for farm prices?" will be the subject for discussion at a meeting to be held at the Farm Bureau hall in Grayslake on Wednesday, Dec. 11, at 1:30 p. m., according to Farm Adviser Ray T. Nicholas.

A. T. Anderson, of the University of Illinois, College of Agriculture, will discuss the future trends of farm prices. Mr. Anderson is well qualified to discuss the subject of farm prices, having had wide experience in this field. He was special assistant to the Governor of the Farm Credit Administration 1933-1936; Chief membership relations section, Land Bank Division, Washington, 1937-1938; and Vice-president, Federal Land Bank of St. Louis, 1939-1944.

The meeting is open to everyone interested in the subject, and all are invited to attend.

Grade School Victorious In First Basketball Tilt; May Get New Uniforms

The Antioch grade school first and second basketball teams were both victorious over Lake Villa in games at the high school gymnasium Tuesday evening. The first team game was close but the second team game went to the home players by a wide margin.

The Lake Villa boys had attractive new uniforms and this set Antioch townpeople busy raising money to get some equally as nice.

Principal Richard Whitacre said that it has been impossible to purchase uniforms because of the shortage. He said the school had no money to purchase them and if townpeople were planning a collection to provide money for the suits he had no objection. He said he had heard of the plan but did not know who was taking the initiative.

The teams do not have any other games scheduled at present.

No Treat From Village At Christmas This Year

The Antioch village board last evening passed up as no longer opportune the appropriation of money for treats to school children.

Started during the depression as a means of bringing Christmas cheer to children so that none might miss a Christmas treat, the plan of purchasing candy and fruit was followed up to and including last year.

Members of the board said that when it became necessary to hire persons to fill the sacks and the treats no longer were distributed at the park where a community tree was erected the practice lost its effect.

DEERPATH FARM WINNER

The Deerpath farm on Rte. 59 south of Libertyville won the Lake county championship for producing a yield of 90.58 bushels of corn per acre in the National DeKalb corn growing contest. Runnerup was H. F. Meyers, of Libertyville with 81.30 bushels per acre.

Antioch Offered Cannon From World War II for Display in Village Park

An opportunity for the village to get a cannon from World War II was presented to the village board last evening by a committee from the American Legion post bearing an offering from Senator Scott Lucas, Washington, D. C.

The gift is a part of the surplus combat material which is being distributed to cities and villages for memorial display purposes and in the case of Antioch, would supplant the World War I cannon that was contributed at the outset of the last war for use in making new combat material.

The board told the committee composed of Charles Cermak, chairman; John Horan and Harry Willett that whatever the American Legion decided was the proper thing to do would be given its consideration.

Attorney George McGaughey informed the board and members of the committee that the cannon contributed by the village had been taken by Ft. Sheridan men to the Diamond junk yard in Waukegan and sold to the junk dealer. He said he was reluctant to see relics so valuable and irreplaceable as cannon of other wars disposed of and said that under such circumstances it was useless to attempt such projects.

The cost to the village would be merely the transportation charges of \$35. For this it would receive a 155 mm Howitzer weighing 11,000 pounds, now in storage at Rock Island, Ill. yards.

President George Bartlett said that the village was told at the time the old cannon was contributed for junk that it would be given a priority choice of combat materials at the close of the last war.

LEGION CAGERS DROP TWO GAMES

Antioch American Legion basketball teams were on the short end of scores in games played this week, when they were beaten 38-19 by Waukegan A. C. on Monday evening at the high school gymnasium and again were losers in a scrimmage game with a team from Richmond on Wednesday evening.

The locals broke even with the invaders on Wednesday with the first game being won and the second lost. The Lake County league which has been in the organization state for some weeks will begin a schedule of games within a week or so, according to Ed Frazier, acting athletic director of the local post, and the teams will begin to travel to neighboring towns.

Kunz Residence Destroyed By Fire Fanned by Breeze

The house of Peter Kunz, Dunn's Lake, Glen Nagis subdivision in the southern part of Antioch township, was destroyed by fire Sunday.

Departments from Fox Lake, Spring Grove, and Ingleside fought valiantly to save the place but could not because of the strong wind and lack of water.

Kunz is an employee of the Chicago surface lines.

Sequoits Win in Season's Opener From Grant Twp.

Play Second League Game At Bensenville Tomorrow Evening

Both teams of the Antioch Township High school basketball squad will go to Bensenville Friday evening to take on that school in the second league match of the season.

The Sequoits got off to a victorious start Nov. 27 with a win over Grant. The first team won 42 to 22 and the Jayvees 17 to 14 in the presence of a capacity crowd.

The preliminary was close throughout, the teams being tied at 8-all at the half. The home team pulled ahead in the third quarter and maintained the advantage.

The Varsity played but a fair game and can stand much improvement, according to Coach Maurice Kruzan. The players missed numerous set-up shots and 17 free throws. The score at the half was 21 to 9, Antioch.

Used Fifteen Players

Kruzan used 15 players in an attempt to find his best combination. His forwards were Kraft, Jones, Reckers, Hills, Hairrell, Bratrude; centers, Morris, Ohlgren, Rigby and Kukigowski; and guards Osinbaugh, Fields, Heuer, Hairrell, Pregenzer, Wells, Weber and Mattson.

Points were made as follows: Kraft, 7; Jones, 12; Reckers, 2; Morris, 9; Ohlgren, 2; Osinbaugh, 2; Fields, 5; Heuer, 2; Mattson, 1.

Grant's players and points made were Sugden, 2; Bennett; DePew, 5; and Foster, forwards; Grams, 4 and Albrecht, 3; centers; Haiman, 6 Edgerton, David, 1 and McNally, 1 guards. Referees, Kelton and Steussy.

Paynie's Jayvees and their points scored were: Poulos, 10; Riedel, 1, Wieczorer and Steiskol, guards; Scott, 3 and Miller, centers; Wilton, Radke, Stillson, 3 and Conrad, forwards.

Grant's team coached by Lewis comprised Wendlund, 2; Brand, Francis, 1, and Koch, forwards; Johnson, 7, and Koutney, centers; Shepler, 2; Swades, Buchal, Glassman, 2, Flinders and Alderman, guards.

Gifts for Yanks Who Gave Sought in Drive Of American Legion

For the third consecutive year the Antioch American Legion post 748 is conducting its "Christmas Gifts for Those Who Gave" campaign.

Boxes have been placed in business places about the village in which money may be placed, and personal gifts may be wrapped and left with department stores for delivery to servicemen now hospitalized because of war injuries.

Edward H. Jahneke is chairman of the committee in charge of the campaign and he is assisted by Bob Taylor. They announced that all moneys and gifts must be in by Dec. 16.

Personal gifts must be marked plainly men or women according to the appropriateness of the gift which must range in value from \$1 to \$5.

Again, the committee warns that the packages must not contain food stuff, razor blades, knives, or matches, or any metal or other material through which psychopathic patients might injure themselves. Names and addresses of the donors may be included and the gifts will be acknowledged.

The packages will be sent to Chicago for distribution, but most of the Lake county gifts will go to patients at the Veterans Administration hospital at Downey.

The Legion members are hopeful that Antioch people have not forgotten the gift of health the boys in service made but will respond with a gift of remembrance at this Christmas time.

Local Officers Invited To Area FBI Conference

The second series of FBI law enforcement conferences in Northern Illinois to which Antioch and other Lake county officers are invited to attend, provides a meeting at the sheriff's office in Waukegan at 1:30 p. m. Dec. 13. G. R. McSwain, special agent in charge, announced.

The purpose of the gathering will be to effect a free exchange of information and an open discussion of law enforcement problems.

Some Facts About Coal

Many people, observing the apparently endless labor troubles that beset the soft coal industry, may have come to the conclusion that the miners are an overworked lot, laboring long hours at starvation wages.

So some facts recently released by the National Coal Association are deserving of wide-spread recognition.

In August, the average weekly earnings of bituminous coal miners was \$62.37—a higher average weekly earnings figure than reported by any other industry in the United States. It was 161.18 per cent higher than in 1939.

The rise in the cost of living between 1939 and August, 1946, on the other hand, was 44.6 per cent, according to the Bureau of Labor Statistics.

The coal miners' hourly earnings in August averaged \$1.467—an increase of 63.8 per cent over 1941. So, whether wages are figured on a weekly or an hourly basis, it is apparent that they have far outrun rises in the cost of living.

It has been said that the miners must work a 54-hour week—because some mines work six days a week some weeks. But very few miners work all of the six days. In June, for example, for which government figures are available, the average work week was 42.9 hours.

Again, one hour of the nine-hour work day is spent, theoretically at least, in traveling back and forth to the working place. That means that while the miner actually works only eight hours, he gets paid for nine.

Lastly, the standard work week in the industry is now 35 hours—and all time worked over 35 hours is paid for at the rate of one and one-half.

These are facts—and they will come as real news to millions of people. They indicate that the United Mine Workers' leadership is not so much concerned with wages and hours as it is with ruthless and limitless domination of a great industry.

Worthy of Note

The following item recently appeared in the Community Reporter of Mount Airy, Maryland: "In this day of constantly rising prices, to suggest that a commodity is cheaper now than it was two or four years ago would give rise to skepticism.

"But it's true. A commercial user of current in this area, in October, 1946, for 120 kwh paid a net figure of \$5.25.

"For that same amount of current in September, 1944, he paid a net of \$3.60.

"It's certainly worthy of note—a commodity which costs less now than it did two years ago."

This is not an isolated, local example. Mount Airy is served by a regulated, heavily-taxed private utility company which has simply followed the general national trend in reducing its rates. In all parts of the nation where the business-managed utilities operate, rates have either tended downward, or have remained stabilized at the levels of years ago.

The utilities must pay the higher wages and material costs of today, just as do all industries. They are subject to the same increases in taxes that came during the war years. The remarkable record they have made in reducing costs to the consumer has been the result of steadily increased operating efficiency, coupled with a rise in demand for service. As in the past, the savings effected are passed on to the user.

"Cheap power" has always been the cry of those who would use billions of the taxpayers' money to socialize power production and distribution, and thus destroy a private industry. Electric power companies in the United States are giving us cheap power, unbelievably cheap power, while the socialists cry for more tax-financed government competition to destroy them.

Oil For The Centuries

Bruce K. Brown, vice president in charge of development of the Standard Oil Company of Indiana, recently discussed the heavy increases in demand for all types of petroleum products, especially diesel oil, which he expected in the future. He then touched on the very vital topic of where the necessary crude is to come from.

It is generally concluded, he said, "that while American demands twenty years hence could be met largely from domestic production there would, nevertheless, be a considerable importation of foreign crude."

"In a free economy the same old incentive—hope of a profit—will stimulate the search for crude petroleum. Further, any increase in the cost of liquid hydrocarbon fuels based on a relative shortage of crude petroleum is bound to have a stimulating effect on the production of these fuels from natural gas, coal, or shale. It is technically possible to synthesize hydrogen and carbon monoxide gas from coal which has a 2,000-year reserve. Further, we have always available the 92,000,000,000 barrels of oil in shale."

The free enterprise system, and scientific research are the guarantors of oil for the centuries to come.

Larry and Billy McGuire were guests of their grandmother, Mrs. Minnetta Bonner in Grayslake from Friday until Sunday.

The December Committee of Ladies Aid will serve a cafeteria dinner at the church, Dec. 5 at noon. The business meeting with annual reports and election of officers will be held in the afternoon.

Mr. and Mrs. E. A. Martin were dinner guest at the Richard Kennedy home in La Grange on Thanksgiving Day.

Killing Ants

Ants can be controlled in yards or gardens by deep cultivation several times in fall, winter and spring to break up the ant colonies and to partially destroy them. For those that remain, mix one ounce of Paris green with one pound of brown sugar and scatter at the rate of one pound to 10,000 square feet. Colonies still remaining can be killed by putting small amounts of carbondisulphide in the openings and then closing the entrance to the nests.

Rain Spurs Vegetables
Vegetables grow faster in rainy weather and use more fertilizer. So to guard against plant food being short in periods following rains, it's a good idea to add more fertilizer or manure for later crops.

Blanching Vegetables
During blanching, vegetables lose some of their nutritive value — some of the water-soluble vitamins and minerals.

Fluctuating Income
The net national income in the United States dropped from 80 billion dollars in 1929 to 40 billion dollars in 1932, and rose to 80 billion dollars in 1937 and to 160 billion dollars in 1944.

**ADEQUATE TELEPHONE EARNINGS
ESSENTIAL FOR GOOD SERVICE****HERE ARE PROPOSED NEW RATES**

• The Illinois Bell Telephone Company on Tuesday, December 3, filed a request with the Illinois Commerce Commission for an adjustment in telephone rates that would produce an increase of about 16% in its income from intrastate Illinois business. The proposed rate increases as applied to individual subscribers vary above and below that average, depending on the class of service, types of equipment, and present base rates. Rates for business service would be increased more than residence.

The company's decision to seek an increase in rates was put off as long as possible, and is made now reluctantly and only because of continued and progressively lowered earnings.

EXPENSES HAVE RISEN FASTER THAN INCOME

Because we're serving more telephones and handling more calls than ever, our income is up. But expenses have increased faster than income. Payroll costs are 126% higher than in 1940. Today 60 cents out of every dollar we take in goes into wages. All other costs have risen 33%.

As a result of these increased costs, our rate of earnings at the first of the year will be the lowest in the company's 65 years in business. Based on actual results for the last 7 months of our telephone operations within Illinois, we have earned less than 1½% (on an annual basis) on net telephone plant (excluding 1946 tax credit).

GOOD SERVICE AND GOOD WAGES

Good telephone service comes from good employees and good

equipment. We want to go on paying good wages and improving your service. But it's evident that telephone rates, in common with most other prices, must quickly reflect the increased cost of doing business.

SOUND CREDIT NEEDED FOR JOB AHEAD

High costs and low earnings come at a time when we must go forward with a \$160,000,000 service extension and improvement program required to meet the public's needs.

Provided we can attract the new money required from investors, this program will make it possible to restore telephone service everywhere to pre-war standards and to assure faster and more accurate handling of both local and long distance calls, and the introduction of new services from our scientific research laboratories that will increase the value and usefulness of your telephone.

OUR EARNINGS REQUIREMENTS ARE NOT HIGH

The earnings required to do the telephone job in Illinois are not high, but they must be adequate. Fully 40% of the revenue that would be produced by the proposed rate increases would be paid out by the Company in the form of taxes.

We believe our customers know full well what price and cost problems we have—from their own experience with rising costs. And we believe they understand why we have been forced to ask for the moderate rate increase indicated below.

SUMMARY OF NEW RATES FOR ANTIOCH

Local: The monthly rates for principal classes of local service are increased in the amounts shown in the accompanying table.

Some increase also applies to PBX switchboards, PBX trunks and certain other special business services.

Long Distance: Rates on longer out-of-town calls between Illinois points would be increased slightly. Rates on long distance calls going outside Illinois are not affected. On short distance toll calls within Illinois increases also apply. The standard 3-minute initial talking period which now applies on calls taking a 30-cent or higher rate would apply on calls taking a 15-cent or higher rate. The 5-minute initial talking period will apply on calls taking the lowest toll rate of 10 cents.

PRINCIPAL LOCAL INCREASES

Present monthly rates and proposed increases for general classes of telephone service in Antioch are shown below:

CLASS OF SERVICE	PRESENT MONTHLY RATE	PROPOSED INCREASE
Rural Residence	\$1.75	25c
4-party Residence	1.50	50c
2-party Residence	1.75	50c
Individual Residence	2.00	50c
Rural Business	2.25	25c
2-party Business	2.75	1.00
Individual Business	3.25	1.00

Vivien Cosgrove and Jerome Cote Marry Thanksgiving Morn

Miss Vivien Frances Cosgrove, daughter of Mr. and Mrs. Joseph Cosgrove, of Antioch, became the bride of Jerome J. Cote, Highland Park, son of Mrs. Gustaf Helligren, Chicago, in a Thanksgiving Day service at St. Peter's church.

The nuptial high mass was read by the Rev. Father Francis Sauerborn. The bride was given in marriage by her father. She wore white satin, Princess style, with a long train and a white lace bonnet. Her colonial bouquet was of white carnation with white satin streamers tied with white baby mums. White mums were the church decorations.

Mrs. Joseph Pachay, Lemont, Ill., sister of the bride, was maid of honor. She wore light blue taffeta with pleated drop shoulders, a fitted bodice and a full skirt. Her Colonial bouquet was of pink and white carnations.

The bridesmaid, Miss Lois Holloway, of Palmyra, Wis., wore pink taffeta with pleated drop shoulders, fitted bodice and full skirt and carried a Colonial bouquet of yellow mums.

The flower girl, Janet Stagen, Milwaukee, Wis., wore a rose taffeta gown with a garland of white and pink carnations in her hair and carried a basket of flower petals.

Mrs. Cosgrove, the bride's mother, wore an aqua and black crepe dress and her corsage was of white carnations. Mrs. Helligren, mother of the bridegroom, wore a teal blue crepe dress with black accessories and a corsage of white carnations.

George Schell, Milwaukee, Wis., brother of the groom, was best man and John Schwalbach, of Highland Park, was an attendant.

The wedding dinner was served to 33 persons at the Colony House and a reception was given for 75 guests during the afternoon at the home of the bride's parents.

The out-of-town guests were Mr. and Mrs. Anthony Stager and family, Milwaukee, Wis.; Miss Joan Munday, Oshkosh, Wis.; Mrs. Chester Holloway and daughter, Lois, of Palmyra, Wis.; Mr. and Mrs. George Schell and family, Milwaukee; Mrs. A. Butler, Highland Park; Mr. and Mrs. Gustaf Helligren, Chicago; Raymond Cote, Milwaukee; Miss Vivien Dabis, Milwaukee; Mr. and Mrs. Joseph Pachay, Lemont, Ill.; Mr. and Mrs. Raymond Cote and family; William Cote, Mr. and Mrs. Edward Sneesby and Mr. and Mrs. George Nenonen, all of Waukegan.

After a few days spent in Chicago Mr. and Mrs. Cote will take residence at Highland Park.

The bride was graduated from Antioch Township High school and has been employed in the personnel department of Fansteel Metallurgical Corp., of North Chicago. The bridegroom was graduated from Highland Park High school and is employed as a salesman for the Coca Cola Co., Lake Bluff.

"Founder of Cradle" Explains Agency at Woman's Club Party

How the Cradle in Evanston grew from a three-bed ward in the Evanston hospital to its present large quarters at 2049 Ridge Ave., in that city, was described by its founder, Mrs. William B. Walrath to the Antioch Woman's club Monday afternoon.

The Cradle first expanded in 1925 and later to three buildings now has a beautiful and scientifically ventilated building. Each baby is in its own glass cubicle. Two registered nurses are on duty and six student nurses and three social workers comprise the staff.

The Cradle acts as an intermediary between the natural parents and the adopting parents, so that the identity of neither is revealed to the other. There is no charge to the adopting parents and the agency is free to select the most appropriate home for the child.

Mrs. Walrath said the Cradle handles about 5,000 babies a year and still the demand for adoption is greater than the supply.

"Babies still thrive on love as much as good food," she said.

The Cradle is a non-sectarian private adoption agency supported solely by voluntary contributions. It is licensed by the state department of public welfare and is a member of the Chicago Council of Social Agencies.

Mrs. Einar Petersen, Spafford St., was hostess to the club assisted by Mrs. M. Nelson, Mrs. Paul Ferris and Mrs. A. L. Schenck.

Mr. and Mrs. W. E. Schroeder and family, of Chicago, Mr. and Mrs. R. O. Anderson and daughter, Susanne, of Waukegan, Mrs. Charles Egbert, Miss Mary Helen Davis, Mrs. Alice Slack, of Chicago, spent Thanksgiving holidays with C. K. Anderson at Andyville, Mr. Anderson left for Melbourne, Fla., today (Thurs.) where he will spend a few weeks.

Mr. and Mrs. Alonzo Runyard, of Main St., will leave in a few days for Cocoa, Fla., to spend the winter.

Book Fair Scheduled For Grade School PTA With Mrs. W. McSwail Speaker

Mrs. W. McSwail, of Lake Zurich will speak on "Children's Literature and Books," at a special meeting of the Grade school Parent Teacher Association at 8 p. m. Monday, Dec. 9, at the school.

Mrs. McSwail will have books with her that may be purchased by parents as Christmas gifts and the association will share in the profits. The association had an attendance of 65 at the last meeting and a larger attendance is expected at Monday's meeting. Room mothers of the lower grades served refreshments.

WESLEY CIRCLE TO HOLD ELECTION

The regular business meeting and election of officers will be held at a meeting to be held at the church Wednesday, Dec. 11, at 2 o'clock.

Make Element That Splits Like Uranium

Hasn't Potency of That Used for Warfare.

BERKELEY, CALIF. — Atomic ovens can produce another chemical element which splits like uranium 235 and plutonium, Dr. Glenn T. Seaborg, nuclear research authority, disclosed.

The recently discovered substance is neptunium 237, an isotope or chemical twin of neptunium 239, the element which automatically changes into the plutonium used in atom bombs.

Dr. Seaborg, a University of California chemist, made his report in a paper prepared for delivery at a sectional meeting of American Chemical society.

Although neptunium 237, when bombarded with slow neutrons, undergoes fission as does U-235 and plutonium 239, the number of atoms which will split in any given quantity of the chemical is so low that it could not be used in atomic bombs, Seaborg said.

He made no reference to the amount of energy released in the fission of neptunium 237. U-235 and plutonium atoms release energies of about 200 million volts, which gives them their destructive power.

However, he termed the new fission discovery "very interesting" from the scientific standpoint and said that 100 milligrams, about one three-hundredth of an ounce, had been made for special chemical studies.

The first neptunium 237 was produced more than a year ago in the university's 225-inch cyclotron by Dr. Seaborg and Arthur C. Wahl. Seaborg said it now is a byproduct of plutonium production at Clinton, Tenn., and Hanford, Wash.

Dr. Seaborg also reported discovery of a new isotope of plutonium with an atomic weight of 241. Up to now only one form of the substance, the powerful U-239, has been revealed publicly.

Seaborg did not report any details of plutonium 241 except to say that it was produced by bombarding the most common type of uranium, U-238, with alpha particles.

"They are the heaviest atom-smashing projectiles ordinarily used by the cyclotron."

SWINE BRUCELLOSIS REPORTED SPREADING

An old enemy of the cattle raiser, a "cousin" of brucellosis, is now rearing its head in the nation's hog

Clean ground, and separating pigs from sows, helps control brucellosis.

lots, and appears to be a growing cause of losses to swine raisers in many parts of the country.

Swine brucellosis presents much the same problem among swine as its companion does among cattle. It causes brood sows to lose their young, results in stillborn pigs, or pigs that

have deformities, or that are too weak to survive. It also causes many breeding failures.

The swine raiser who wants to protect his future profits, should therefore take decisive steps to stop brucellosis, if it is already in his herd; or to prevent its entering if the herd is still clean.

Two plans of swine brucellosis control are generally recommended by veterinarians. First, the herd should be blood-tested, to determine whether brucellosis is present. If the herd is a commercial one, and brucellosis is found, it is recommended that the entire breeding stock be sent to slaughter, and that the owner start out with fresh, clean stock. If the herd is pure-bred, where the owner wants to preserve breeding lines, then the breeding animals should be segregated. Pigs from the infected sows should be weaned and placed on clean ground, and periodic blood tests given to weed out the infected animals and keep the rest of the young stock clean.

Unlike cattle brucellosis, swine brucellosis is a HERD disease, rather than a disease of individuals. Therefore, herd control measures and herd blood testing at periodic intervals, seem to be the best safety measures available to date.

High Melting Point

Rhenium is associated with molybdenum and manganese minerals and is of interest to lamp manufacturers because of its very high melting point of 3,200 degrees centigrade.

Vitamin A

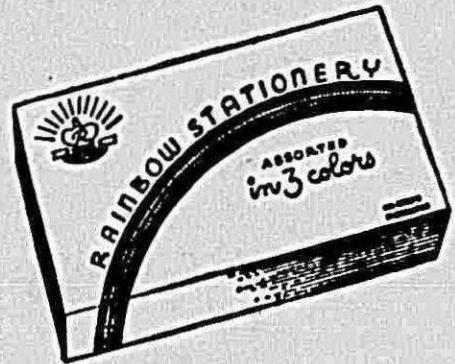

Vitamin A is essential to normal development and health of skin and respiratory and eye membranes. Liver is an excellent source of vitamin A.

Comfortable Skirt

For your daily chores around the house wear a full skirt which will give ease in stooping or climbing. Short skirts will keep heels from catching.

Directive Is Drafted

To Put End to Nazism

BERLIN. — Uniform laws to punish war crimes and root out Nazism, decreeing death for some offenders, will blanket all Germany under a new directive of the Allied control council's coordinating committee.

This directive sets up a common policy for "the punishment of war criminals, Nazis, militarists" and pro-Nazi industrialists; "the complete and lasting destruction of Nazism and militarism," and the internment or surveillance of Germans considered dangerous to Allied purposes.

Military commanders of the respective occupation zones — American, British, French and Russian—who themselves make up the control council, are to put the directive into effect.

'46 Wheat Crop Reported

As Largest Since 1940

WASHINGTON. — Agriculture department reported that this year's world wheat crop will be the largest since 1940, further easing fears of another mass famine this winter and next spring.

It said production will total about 5,875,000,000 bushels compared with only 5,150,000,000 last year when much of the world skimmed along on short rations. This compares with a prewar average of 5,914,000,000 bushels.

Although the optimistic prediction apparently eased any threat of mass starvation, the department emphasized that every one in the world won't have as much to eat as he wants.

United States Will Get

Hams From Poland in 1947

NEW YORK. — Succulent Polish hams, a war casualty, will be back on the American menu soon—but don't delay dinner until they arrive.

Zygmunt Litynski, commercial counselor of the embassy of Poland, gave that advice, with the information it would be next year before the famed hams and bacon are exported in any quantity.

Litynski said that at present 60 to 70 per cent of Polish exports, principally coal, is going to Russia. The United States is getting only a fraction of Poland's foreign shipments.

Churchill's Story of

War to Take Two Years

LONDON. — The Daily Herald said that Winston Churchill would write the "Inner Story of the War" in two or three volumes. The newspaper, quoting a Churchill confidante, said the job was expected to take at least two years.

Churchill previously had said it was unlikely he would allow his war memoirs to be published during his lifetime.

This Month in Your Service BULLETIN

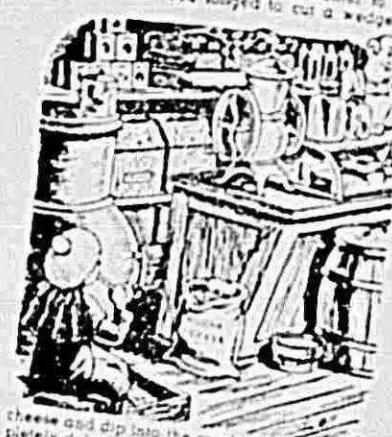

We go nostalgic and celebrate Christmas in the little red schoolhouse of long ago. This is a suspenseful occasion. Will you be snowbound the night of the doings? Will you remember your lines? All is revealed in "Once Upon a Christmas Time." The illustrations are by John McKee.

Once Upon a Christmas Time

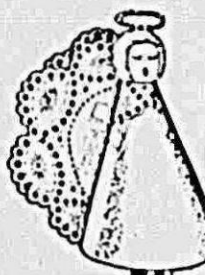

THERE was to be a Christmas dinner at the little red schoolhouse. You were shocked to find that you were to speak a poem at the party for small fry. The older boys and girls were also given assignments and songs. In the minutes before the school opened, you sounded solemnly like a broken record. One of the older girls, Jennie, glanced at the pointer and reminded herself of the poem. With a gasp she remembered that she was to recite the poem. She was so nervous that she was not sure she could remember the poem. She was so nervous that she was not sure she could remember the poem. She was so nervous that she was not sure she could remember the poem.

We go up-to-date on the About You and Your House page with tantalizing Christmas tree and table decorations. Here are Angel Pin Ups (halo-equipped) and merry Cow Bells which revolutionize their paper drinking-cup forbears. Here too are Mr. and Mrs. Snow, a not too substantial couple really, with marshmallow antecedents. Yes, there are complete how-to-make instructions included for all decorations shown. LAKE VILLA

The Official Board of the Community Church will hold the December meeting at the home of Mr. and Mrs. Dan Boyer on Dering Lane on Friday evening this week.

The Woman's Society of Christian Service will hold a meeting on Wednesday afternoon, Dec. 18, with Mrs. Dan Boyer at her home and the Christmas party with exchange of gifts will be a feature of the afternoon after the annual installation of officers and other business. Visitors are very welcome.

The Royal Neighbor meeting will be held at the Village hall on Tuesday evening, Dec. 17, instead of Dec. 10, as there will be only one meeting in Dec. This will be a potluck supper at 7 o'clock followed by the meeting which includes the annual election of officers and the Christmas party with exchange of gifts.

Mrs. Emma Williamson is a surgical patient at St. Luke's hospital in Chicago.

The Halcyon Club of the Community Church held its regular meeting on Tuesday evening, Nov. 26 with Mrs. Edward Langbein at her home. Mrs. Meinersmann, Jr., gave a talk on "Children's Books" and refreshments were served.

Mr. and Mrs. Jake Fish were pleasantly surprised last Friday evening when a number of relatives came in to help them celebrate their tenth wedding anniversary.

Mrs. Helen Avery entertained her bridge club on Tuesday afternoon this week and the ladies of the Sewing club on Thursday. On Thanksgiving Day the dinner guests of Mr. and Mrs. Avery, Jr., were Mr. and Mrs. Austin and Mr. and Mrs. Berg and son, of Chicago; Harold Druce and sons, of Grayslake, and the Senior Averages, of Lake Villa.

Mr. and Mrs. Andrew McGlashan went to Chicago last Thursday to visit until Saturday with their son, Andy and family, also their daughter,

Mrs. Sawyer and husband. On Thanksgiving Day Miss Marilyn Tiede became the bride of John J. Meyer in a candle-light service at the Community church at 5 o'clock in the presence of the immediate families and a few friends by the Rev. Strausser, of St. Ignatius Episcopal church at Antioch in the absence of Rev. Pierson. The bride, in a brown suit and a corsage of yellow flowers, was attended by her sister, Barbara, in a dress of aqua blue, and the groom was attended by his friend, Carl Miller, Jr. A reception at the Tiede home followed the ceremony. Mrs. Gordon Martin played traditional wedding music on the organ for the service. The bride's grandmother, Mrs. Brewick, and her son, Glenn Brewick, of Chicago, were here for the ceremony, also the groom's sister and husband, Mrs. Verne Sharp, of Burlington, Wis. Both bride and groom are graduates of Antioch High school and John has been engaged in the building business with his father since his return from overseas, while Marilyn has been employed at the Globe store in Waukegan. They expect to live at North Chicago, where a furnished apartment will be ready for them soon.

Mr. Herman Ducommun visited relatives at Ladysmith, Wis., last week.

Walter Paske and wife, former residents here, now of Grass Lake, left this week with their trailer to spend the winter in Florida.

Mrs. Elizabeth Griffith and daughter,

ter, Mrs. Mabel Holst, have gone to Chicago for the winter.

Mr. and Mrs. Gus Swanson spent Thanksgiving Day with their daughter, Mrs. Carl Bjerstedt, and family in Waukegan.

Frank Slazes spent several days in the hospital last week for treatment of blood poisoning.

Mrs. Elsie Hucker, a recent hospital patient, is at the home of her son, Earl and family.

Mr. and Mrs. Charles Bennecke, Jr., who have recently sold their home just north of Wedge's Corners, have purchased a trailer and will leave soon to spend the winter in Florida.

Mr. and Mrs. Chester Hamann, nee Evelyn Fish, are receiving congratulations on the birth of a son at St. Therese hospital on Tuesday last week. They live in Waukegan.

Dr. M. H. Gindich and family spent Thanksgiving in Chicago with relatives and Mrs. Gindich remained for a visit.

Mr. David Schrum and his mother visited relatives at Harvey, Ill., on

Thanksgiving Day.

Dr. Midgley and family were in Chicago over the Thanksgiving holiday to visit relatives there.

Mr. and Mrs. Gordon Blumenschein and children, of South Bend, Ind., spent the Thanksgiving holidays with their parents, the C. Blumenschein and Walter Schneider families. On Thursday they were guests of Mr. and Mrs. Clarence Blumenschein and other guests were Mrs. Mabel Baker,

of Lake Forest and Tom Hagen, of Eau Claire, Wis.

Combustioneer
AUTOMATIC COAL STOKER
NOW AVAILABLE

Combustioneer's amazing invention—the Automatic Respirator—now makes automatic heat cheaper than hand-firing. The efficiency of the Automatic Respirator is astonishing... It detects... then measures out the precise amount of air required by the fire-bed for complete combustion at all times. Thus all volatile gases and carbon particles in the coal are totally consumed. EXTRA heat energy is extracted from every pound of coal. Fuel savings are exceptional. Combustioneer is sized for homes, flats, apartments, hotels and factories.
